Acumen Capacity Index™

Juliane Sample

Sales

Sample Co.

7-6-2017

Introduction

Research has shown that the most effective people are those who understand themselves, both their strengths and weaknesses, so they can develop strategies to meet the demands of their environment.

The Acumen Capacity Index report is designed to help an individual truly understand themselves, how they analyze and interpret their experiences. A person's acumen, keenness and depth of perception or discernment, is directly related to their level of performance. The stronger a person's acumen, the more aware they are of their reality in both their external and internal world.

This report explores both how a person interacts with the external world and from a personal perspective. There are seven primary areas that this report will explore:

- Summary of Acumen Capacity
- World View General Characteristics
- Self View General Characteristics
- Clarity of Performance and Situational Awareness
- Capacity for Problem Solving
- Reaction Index
- Business Performance Summary

Be sure to read the entire report with an open mind. Everyone has areas where they can improve. Use the content of this report while working with your mentor, professional coach or manager in order to make improvements, both personally and professionally.

Summary of Acumen Capacity

The Dimensions section measures Juliane's capacity to understand each of the dimensions individually as well as the capacity to differentiate the value elements in situations.

The Individuality column relates to the development of your capacity to discern individuality in others and individuality in oneself. How well do you understand others? How well developed is your sense of self? (Feeling Column)

The Practical Situations column relates to the development of your capacity to discern the value in situations in the outside world and in one's own roles in life. How well do you understand all aspects of practical situations? How well do you understand your roles in life? (Doing Column)

The Systems and Order column relates to the development of your capacity to discern systems and order in the world and within oneself. How well do you understand structure and organization in the world? How well do you understand your self-organization and future direction? (Thinking Column)

The Distinction Index Column relates to your development of the capacity to differentiate values in general in the world as well as within oneself. (Judgment Column)

We will be exploring this information in more detail over the next two pages in the World View and Self View sections.

World View Self-View

Summary of Capacity for Problem Solving

The Individual Situations column relates to the development of your capacity to discern the importance within situations concerning the individuality of others and concerning one's own individuality.

The Complex Situations column relates to the development of your capacity to discern the importance within practical situations and in situations concerning one's own roles in life.

The Theoretical Situations column relates to the development of your capacity to discern the importance within systems and in situations requiring self-discipline.

The Problems and Decisions column relates to the development of your capacity to discern the importance within situations in the world and in oneself.

The Reaction Index column relates to the development of your capacity for organizing one's reactions when confronted with situations in the world and within oneself.

World View Self-View

Capacity for Problem Solving

The Problem Solving Summary will identify Juliane's capacity to solve problems and concentrate during challenging times and ability to make balanced decisions. Levels of development will be indicated by Well Developed, Developed or Needs Development as well as through a numerical score.

Capacity for Solving Problems Involving People - The ability to perceive the important within the complex in outside situations concerning the individuality of others and the ability to solve personal problems of others.

Capacity for Solving Practical Problems - The ability to perceive the important within the complex in outside situations in order to solve practical problems in the outside world.

Capacity for Solving Theoretical Problems - The ability to perceive the important within the complex in outside situations or systems in order to solve theoretical problems in the outside world.

Capacity for Problem Solving and Decision Making in the Outside World - The ability to perceive all relevant information needed within complex situations for the task at hand in order to make important decisions.

* 68% of the population falls within the shaded area.

Capacity for Problem Solving Continued

Internal Problem Solving Ability - The ability to perceive the important within the complex in situations that concern one's own individuality in order to solve one's own personal problems.

Problem Solving Ability Within One's Roles - The ability to perceive the important within the complex in situations which concern one's roles in order to resolve personal practical problems.

Problem Solving Ability Regarding One's Future - The ability to perceive the important within the complex in problems which require self-discipline and the ability to resolve theoretical personal problems.

Capacity for Problem Solving and Decision Making Within One's Self - The ability to perceive the important within the complex within one's self in order to resolve problems and to make personal decisions.

* 68% of the population falls within the shaded area.

Reaction Index

The Reaction Index is determined by looking at Juliane's External Control and Internal Control. The combination of this information will identify one's capacity for appropriate response in difficult situations. Levels of development will be indicated by Well Developed, Developed or Needs Development.

External Control: The ability to appear to be rational and in control when facing problems or crises.

Needs Development

Developed

Well Developed

- She shows discipline and organization when reacting to conflict, primarily dealing with problems involving other people.
- She shows discipline and organization when reacting to conflict, primarily dealing with problems involving systems and theories.
- Her capacity to organize and control her reactions when confronted with outside problems is well developed.
- She shows discipline and organization when reacting to conflict, primarily dealing with problems involving practical situations.

Internal Control: The ability to remain in conscious command of one's internal self when confronted with difficult circumstances and to respond rationally.

Needs Development

Developed

Well Developed

- She shows lack of discipline and organization when reacting to conflict, primarily dealing with problems involving her own individuality.
- She shows lack of discipline and organization when reacting to conflict, primarily dealing with problems involving self-discipline.
- Her capacity to organize and discipline her reactions when confronted with problems within herself needs development.
- She shows lack of discipline and organization when reacting to conflict, primarily dealing with problems involving her roles in life.

* 68% of the population falls within the shaded area.

Dimensional Balance For Consulting and Coaching

- ★ Population mean
- ↑ Overvaluation
- Neutral valuation
- ↓ Undervaluation

EXTERNAL FACTORS (Part 1)

INTERNAL FACTORS (Part 2)

Score	8.6	9.4	8.0	7.2	7.8	7.0
